

COLDOR Company is the biggest producer of insulated storage doors and commercial modular cold rooms in Poland based on huge experience on the market. We still bring new high quality products which still finds interest on the world market. Our offer is still growing within new products nonstandard or unavailable products on polish market which faces our customers need. Although our company and employees experience is on a high level, our company has many partners all over the world and our customers are satisfied with our products. We keep the prices competitive to small local producers. Below we present list of standard products. If there still are products you can't find please contact us for special offer.
